

ADD-RACK10-1PU1

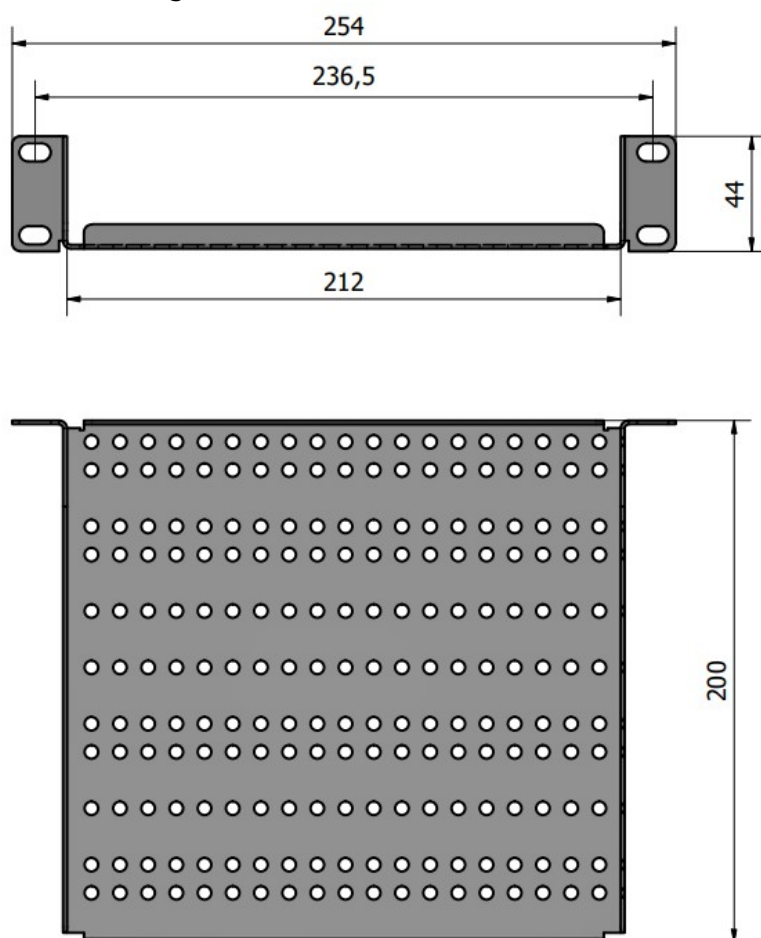

RACK 10" 1U mounting shelf with hole pattern

INSTRUCTION MANUAL

ADD-RACK10-1PU1 is a mounting shelf dedicated to the installation of ATTE modules in a RACK 10" cabinet.

The use of the adapter facilitates the assembly and convenient arrangement of the modules and helps to organize the wiring. Together with the patch panel, which is the end of the structured cabling for twisted-pair cable, and the cable organizer, which facilitates the routing of cables in the cabinet, it allows to increase the aesthetics of the assembly and ensures a professional appearance of the installation.

- Enables the installation of ATTE modules in a RACK 10" cabinet
- Large usable area to accommodate multiple devices simultaneously
- 4.8 mm system holes in 10.8 mm pitch, compatible with all modules from the offer
- Horizontal component arrangement

General view of the device

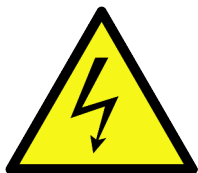

Technical Specification

Housing Construction	Powder coated steel sheet RAL 9004
Assembly	RACK 10", M6 screws (included)
Ingress Protection Rating	IP20
Operating Temperature	-25 ... +65°C
Dimensions	254 x 44 x 200 mm
Weight	0,463 kg

Safety Precautions

- The installation and wiring must be performed by a competent engineer. For permanently connected equipment, a readily accessible disconnect device must be incorporated in the fixed wiring. The device must be connected to the mains supply 230 VAC 50 Hz via a specified fused connection outlet.
- Despite the fact that the enclosure of the device has a high degree of protection, it is recommended that the device should be mounted in places protected from direct influence of atmospheric factors, in particular against rain and direct sunlight.
- Since the power supply does not have a switch to isolate the mains supply, the installer is responsible for notifying the user of the means of isolating the mains supply from the device.
- When replacing fuses, use original or compatible types. The exact parameters of the fuses can be found on the inside of the device cover.

WARNING

Before installation and during maintenance make sure that the mains voltage 230VAC is disconnected

Installation

- Mount the adapter in the selected place of the RACK 10" cabinet using the attached mounting screws
- Place the modules using the mounting pins
- Lead the connecting wires.
- After checking the correct operation of the devices, close the housing.

WEEE MARKING

This symbol on the product or on its packaging indicates that the product must not be disposed of with normal household waste. Instead such equipment must be disposed of by arranging to return it to a designated collection point for the recycling of waste electrical and electronic equipment.
